Mrs. Nelson informed the Community Council of Brockbank's presentation to the School Board on Wednesday December 13. She invited all members to attend.

The board discussed the mandatory goals for school improvement plans which includes reading and the arts. The board also recognized math as a necessary school improvement goal. Other optional goals included PBIS, technology and communication. It was decided that technology would continue to be embedded in other goals and school communication was sufficient.

The board then discussed the development and revision of the School Improvement Reading Goal. Principal Nelson spent time explaining the change in the reading software from Raz Kids to MyOn. Further discussion will be held at the end of the year after a comparison of impact can be made between the two programs. The rest of the goal was discussed and minor changes were made.
