

Community Council Minutes  
February, 2018

In attendance: Janae Wilson, Tiffany Beus, Jen Heywood, Marcy Noorda and Lorraine Nelson.

Absent: Monica Hullinger and Valerie Benson

\* The primary focus of today's meeting was the development and revision of the School Improvement Plan.

The board discussed the development and revision of the School Improvement Arts Goal. Marcy and Janae explained the benefits of the district GAINS program to the board. The board then reviewed and discussed the remainder of the goal and it will proceed as written.

The next goal discussed was Brockbank's Gifted and Talented program. It was proposed that the name of gifted and talented pull-out program be changed to an extension class rather than the gifted and talented class. It was also purposed that teachers be given the opportunity to have a time set aside weekly or monthly for students who are caught up on their work to participate in extension activities. Those suggestions will be discussed with faculty and appropriate changes will be made. The remainder of the goal will proceed as written.
