

Community Council Minutes
January 9, 2018

In attendance: Janae Wilson, Tiffany Beus, Jen Heywood, Marcy Noorda, Valerie Benson, Lorraine Nelson and Monica Hullinger
Absent: Brenda Dudley

Mrs. Nelson reported the feedback she received on Brockbank's presentation to the School Board that was held on December 13. A selection of Brockbank's sixth grades presented a play about Brockbank's past, present and future. Positive feedback was given by School Board members and other district administration. It appears the presentation was a success. Mrs. Nelson expressed her thanks to all those involved.

The board then discussed the development and revision of the School Improvement Math Goal. The Community Council took time evaluating data to determine what instructional goals and decisions will impact students most. Time was also spent discussing software that would benefit students most. Principal Nelson explained the different kinds of software available. She explained their cost, legislative support and what she knew about the impact on students. The software that was discussed was ALEX, Reflex and Imagine Math. The rest of the goal was discussed and minor changes were made.
